BIG PICTURE OVERVIEW:
Helping your church or ministry create a culture for disciple-making the way Jesus did.

Providing you simple tools to help your church "lift up Jesus" (Acts 20:20-21) as our model for life and ministry. This will happen through Jesus-focused preaching, small group study and discussions, and accountability tools with weekly encouragement and metrics. **We recommend starting with the Leader Training for your staff, which helps create internal alignment and a better understanding of disciple-making like Jesus.** Next, your team will be equipped to begin your first Congregational Module, containing 8-11 sermons/sessions.

Ideally, we recommend that all 3 Congregational Modules (Mission -> Methods -> Model) be completed in three semesters, which allows for your people time to implement and apply these teachings. This resource is flexible and can be completed in different amounts of time or in an order that best suits your ministry.
